The Continuing Medical Education Committee at Doctors Hospital at Renaissance is proud to present the 8th Annual Medical Education Conference. This program is designed to provide Physicians, Nurse Practitioners, Physician Assistants and Nurses with up to date and evidence based clinical data. Emphasis will be placed on the practical application of content presentation. It will also cover a wide range of topics essential to all practitioners at the level of a practicing physician. The intention is to improve competence in making an appropriate diagnosis and providing effective treatment and consultations with the overall goal of improving patient outcomes. This represents an important step toward fulfilling our mission of bringing state of the art care to our community.

This conference will provide the tools to better manage their practice and address disease states common to the adult and pediatric populations with an emphasis on optimizing quality care and patient outcomes. The conference will highlight diagnosis, treatment and management of several diseases and conditions with discussion of the new advances in care and technology related to primary care. This represents an important step toward fulfilling our mission of bringing state of the art care to our community.

Learning Objectives
- Discuss new advances in care and technology related to primary care.
- Identify current guidelines and evidenced based medicine as applicable to the specific topic’s objectives.
